**Questionnaire
Completion Date:**

Please mail your completed questionnaire back to us in the provided postage-paid envelope

RESIDENTIAL HISTORY QUESTIONNAIRE

BC GENERATIONS PROJECT
Your time today builds a healthier tomorrow.

These questions are about your living environment. Residence can be an indicator of environmental exposure. It can be used to estimate, for instance, exposure to outside air pollution or the neighbourhood walkability. To the best of your ability, please complete the following for each home in which you have lived for at least 1 YEAR. If the residence was outside of Canada, please record city and country only. **Begin** with your current residence (even if you have lived in it for less than one year) and work backwards to the residence you lived as a child.

Time Period		Country	City, Town or Municipality	Street Address, Neighbourhood or Cross street or other description (if Street address is incomplete or unknown)	Province	Postal Code	On average, approximately how many months of the year did you live at this residence?		Type of housing 1 = Single family 2 = Duplex 3 = Townhouse or Condo 4 = Apartment 5 = Other 9 = don't know	Main source of water in home 1 = municipal water source 2 = dug well 3 = drilled well 4 = other 9 = don't know	Primary source of heat in home 1 = electric 2 = wood 3 = gas/propane 4 = coal 5 = oil 6 = other 7 = none 9 = don't know
Start Year	End Year						# of Months (1 to 12)	Don't Know			
<i>Example:</i>											
1967	1976	Canada	Surrey	15678 107 Ave / Guildford	BC		12		1	1	1
	current
